

Research Associate

Intact Genomics is seeking a full-time research associate to join our innovative, dynamic team and contribute to the production and development of novel proteins and molecular biology reagents. In this position you will be responsible for completing the production of a wide variety of molecular biology proteins, from cell break through to final QC, participating protein related products development and improvement.

DUTIES & RESPONSIBILITIES

- Purify a variety of molecular biology enzymes and proteins to support our growing product lines. Complete assays measuring key enzymatic activities, as well as standard protein characterization assays, protein/enzyme development pipelines.
- Perform common molecular biology techniques such as E. coli, bacterial, and fungal cultures, protein/enzyme expression, DNA/RNA extractions, DNA/RNA purification, DNA cloning, PCR, and RT-qPCR, DNA sequencing including next-generation sequencing, etc.
- Execute inventory control of reagents, chemicals, and supplies using proper labeling and computerized systems.
- Prepare common buffers and reagents. Maintains lab order and cleanliness. Set-up, operate and maintain lab equipment.
- Collect and record experimental data. Participate in team meetings.
- Perform other duties as assigned.

QUALIFICATIONS & REQUIREMENTS

- B.S. in biochemistry, protein biochemistry, biochemical engineering, or related field. Understanding of basic enzyme characterization techniques through relevant course work is strongly desired. 1 to 3 years of experience in protein purification or related biochemistry areas is preferred, but not required.
- Excellent analytical, organizational and English written and verbal communication skills are essential.
- Attention to details and ability to meet deadlines.
- Highly self-motivated, ability to work independently and within a diverse team environment.

COMPENSATION

Intact Genomics offers an attractive compensation and benefits package, which includes a competitive salary, paid vacation days and holidays, United Healthcare health, dental, vision and life insurance, 401k plan with a 4% company match.

HOW TO APPLY

Interested candidates should submit a cover letter, resume and two references to: rye@intactgenomics.com or apply online at www.intactgenomics.com.
