

Research Associate

Intact Genomics is seeking a full-time research associate joining an innovative and dynamic biotech company. The successful candidate will be responsible for laboratory duties, and performing routine lab tasks.

DUTIES & RESPONSIBILITIES

Perform common molecular biology techniques such as E. coli, bacterial, and fungal cultures, DNA/RNA extractions, DNA/RNA purification, DNA cloning, PCR, and RT-qPCR, DNA sequencing including next-generation sequencing, etc.

Assist Ph.D. scientists with experiments; follow recipes and protocols to prepare media, buffers and solutions.

Set-up, operate and maintain lab equipment.

Collect and record experimental data.

Assist with general lab maintenance and cleaning.

Perform other duties as assigned.

QUALIFICATIONS & REQUIREMENTS

Minimum of 2 year of college education in biology or biotechnology related areas. Bachelor degree in Molecular biology, biochemistry or Microbiology is preferred. 2 years of relevant experience is recommended, but not required.

Excellent analytical, organizational and English written and verbal communication skills are essential.

Attention to details and ability to meet deadlines.

Highly self-motivated, ability to work independently and within a diverse team environment.

HOW TO APPLY

Interested candidates should submit a cover letter, resume and two references to: rye@intactgenomics.com or apply online at www.intactgenomics.com.
